#### Action for Children's BS5 Xmas Giveaway

For several years Action for Children have been providing additional support to local families over Xmas by handing out hampers and gifts on Christmas Eve from EBC.

Vince Spaulding from Action for Children said "The toys and food provided to us during the festive period has benefitted many families across Bristol; families struggling as a result of poverty; homelessness; parental physical and mental ill health; and children with additional needs".

The Action for Children Team made deliveries of Christmas toys and hampers to the families unable to come to the project and organised a collection point at EBC with activities for the visiting children.

Vince added "The families really enjoyed the decorated grotto in Unit 51, offering festive face-painting where they collected wrapped up toys for every child. Parents and children enjoyed drinks and snacks whilst Christmas music played in the Conference room whilst collecting their food hampers; given out by Action for Children employees and volunteers dressed as elves and, of course, Father Christmas!"

#### Easton's Low Carbon Energy Pioneers

[Clean Energy Prospector](#), a renewable energy company based at EBC, have recently started construction on a 'Energy Centre' at Easton Community Centre. Their project will capture and store summer heat in the ground next to Owen Sq and provide heat to Easton Community Centre. This ambitious project will extract heat from the air, pass it through the ground and store it as heat in the soil. It will then be pumped back to the Community Centre when needed in the cooler months. Last week the bore holes where the heat will be stored were dug to a depth of 150m! Projects like this are much more eco friendly than traditional heating, which accounts for a third of all carbon emissions.
